

Cool Down

This Summer

IMS 901A

Portable Pressure Misting Fan

- IDEAL FOR HIRE
- OSCILLATES
- NO WETTING OR HUMIDITY
- SPOT COOLING
- INDOOR OR OUTDOOR
- FLASH EVAPORATION
- PORTABLE OR FIXED
- NO DUST - NO FLIES
- ECONOMICAL TO RUN

Revolutionary NEW cooling application that saves you money ... is cheap to run, very efficient, lowers the temperature fast in the area it is placed in, and drops the temp. up to 10 degrees within a 4-5 metre vector of approx. 140 degrees.

It uses minimal water and power consumption but gives quick fast heat relief where it's needed.

Portable Pressure Misting Fan with auto oscillation, adjustable water timer, able to **SPOT COOL** any large open area app. 10 deg. Perfect for HIRE companies to Corporate Event organisers etc.

WHAT IS IT?

Mr Kool's Misting Fans & Misting Systems suit Australian standards & climate. These systems are the latest technology, & NEW to Australia. They are used where HIGH temperatures can cause major health problems. Misting Systems LOWER the ambient temperature QUICKLY by FLASH evaporation of the surrounding air

You will find them in Street Cafes, Hotel Beer Gardens, Patios, Schools, Sporting Events, Factories, Sheds, Stables and Marquees. Particularly they are effective for the safety of

Livestock where they can be at risk
Portable, or fixed they provide a unique solution
